THE CITY COUNCIL

(Continued from page 1)

a grade a little higher than that suggested by Engineer Dave.

COMMISSIONERS' REPORT.

The Commissioners brought in the following report:

We instructed Foreman Morris to have gutters and catch basins cleared out. This work will be continued as long as necessary.

As arranged with the Saskatchewan Land Co. to renew the lease of the exhibit building for \$120.00 per year, the city to have the brick work pointed as soon as weather permits and to provide storm wash next fall.

The assessment roll was completed and notices mailed by February 27th.

City assessment: Land \$239,287, special franchise \$130,000, business \$52,104. Exemption \$163,300. Net assessment: Land \$3,755, 981, special franchise \$130,000, business \$53,104.

School assessment: Land \$7,184, 087. Exemption \$405,025. Net assessment \$6,679,662. Public \$6,480,462. Separate \$189,200.

Appeals against the assessment will be received until March 20th and the earliest date of the Court of Revision can meet will be Wednesday, April 7th. We recommend that the date be fixed at this meeting.

Copies of information and requirements to May 15th, as submitted to the Bank of Montreal, have been supplied the members of Council.

We submit January reports of M. H.O., Chief of Police, License Inspector and Fire Chief.

We submit statement of receipts and disbursements for February.

We submit herewith report and plan of change of grade on Gaetz Ave.

We submit herewith report of Chief Meeres on weigh scales.

We submit herewith report of R. G. Dave, C.E., on pumping plant, also our report on financial side of the question.

We submit accounts for your authorization to pay.

We submit report of Dr. McEwan on Pilot horse and recommend that he be sold.

We submit for your consideration a by-law amending the license by-law.

We submit offer of Mrs. Stent for chicken house at rear of property in Woodlee, sold to her last year, and recommend that the offer be accepted.

All of which is respectfully submitted.

J. A. CARSWELL,

A. T. STEPHENSON,

Commissioners.

The report was adopted without amendment.

With reference to the recommendation as to selling one of the first team horses, the report of Dr. McEwan was read. The horse he had throat trouble, and would be better with more outside work.

Alderman Coote understood the horse was wrong on his feet. The Commissioner admitted he might have given the Council that impression, as that was usually what went wrong with the first teams, standing so much in the stables, but the Dr. had from now fully into the case. At present a horse owned by former driver Scott is employed, and will be used as the Pilot horse is sold, and a new one bought. The Council did not wish to assume responsibility in case of anything happening driver Scott's horse, but the Commissioners will write him to this effect.

FIRE CHIEF'S REPORT.

Chief Meeres reported two chimney fires in February, with an average attendance of 14 men. At the three regular practices there was an average attendance of 15.5 men. The fire alarm system was tested every week, and has been working satisfactorily.

The hydrants were tested every morning and the constant care and attention had kept them so that had the need arisen they were in good condition. The regular scale reads for February were \$83.35. The scales were tested every morning at 8 o'clock and, if necessary, a cross out was run around the platform. This had been the custom for years. The Chief reported further regarding the scales not agreeing with Hewson's, that Hewson's had found scales were a little out, one of the bearers having been temporarily displaced; all the scales in the city were now weighing better.

CHIEF OF POLICE REPORT.

Chief of Police Anderson had no crime to report, only six wage cases coming before the court. Nine persons had been given a bed for the night, six summons issued, seventeen doors found open, and twenty-three are lumps in the Chief had collected \$225 in license fees from draymen, barbers, shops, food bars and restaurants.

The Medical Health Officer reported that the epidemic of mumps had practically subsided. Mrs. Horst was entirely better.

ACCOUNTS.

Payment of the following accounts was authorized:

Geo. H. Harvey, \$175; H. G. Stone, 15.00; Western (Gen. Exp.), 44.70; Day Hardware Co., 2.55; News Publishing Co., 48.00; N. White, 4.25; J. Halstead, 5.00; Palmer Livery, 1.50; W. McEwan, 4.00; W. Springett, 3.65; Dr. Colburn and Sanders, 34.00; T. A. Gaetz, 1.85; Smith & Gaetz, 1.50; S. Millman, .75; Steam Laundry, 2.62; Gaetz-Cornett Co., 3.50; Monetary Times, 3.00.

Alderman Smith, Snell and Johns were appointed to the market committee.

SELLING LANDS FOR TAXES.

Mr. Greene had quite a talk with the Council, giving information as to law regarding sales of lands in arrears of taxes, which had been asked for by the Aldermen. When lands became two years in arrears for

down on all grants. They had given \$4,000 last year.

Alderman Botterill, Snell and Watson were inclined to think that they would have less trouble were all grants cut out, rather than showing favor to one.

The Mayor said the bank would not stand for any grants. They would have to protect the hospital, however.

Alderman Watson understood Mr. Boyce to say they had books enough for two years.

Alderman Johns said the readers had far exceeded expectations. He suggested that the Free Library secretary be placed on the city salary list. This would obviate the necessity of making a grant.

Aldermen Johns and Coote moved that \$150 be granted to the Free Library. Only the movers voted for it.

Aldermen Snell and Watson moved that no grants be made. Alderman Watson took occasion to slate the Agricultural Society for soaking the people in their entrance, paddocks and grand stand charges last year.

Alderman Botterill suggested that the estimates be adopted with the amendments agreed upon, and that the bank be urgently requested to loan \$1,500 for grants.

This met with the favor of the majority. Alderman Snell's motion was withdrawn, and a resolution to this effect was adopted.

Alderman Watson challenged Chief Meeres' statement in his report that there was not adequate fire pressure on the waterworks. Hill Chief had suggested additional equipment to remedy the difficulty.

Alderman Watson said that the Chief had found no fire pressure in the Ladies' College sidewalk caught fire last summer. He (Alderman Watson) had given instruction to his engineers that, if water was not being taken within fifteen minutes after the alarm was sounded, they were to cut off the fire pressure.

The reason of that order was that the pumping plant had not been notified when the fire was out, and in one case fire pressure had been maintained for five hours when there was no fire.

As to the hose wanted by the Chief, the Commissioners will look into the present supply. That could be added during the year, if needed, the Mayor said.

The estimates had been sent in to the bank, and the final draft will be made when the tax rate is struck.

The Mayor considered that Alderman Coote's aggressive attitude as to approaching the bank would have far different results than he expected. If he went to the bank in the spirit he had shown at the last two meetings, the bank representative and the account would be ordered out of the bank.

Alderman Coote retorted that when the Mayor did not go near the bank, they were told, it was no use to ask for money. When he finally did go, things looked more favorable.

The Mayor said the bank wanted further information.

Alderman Coote said the second better whiter, and the special meeting did not ask for information.

The Commissioners said the bank kept asking for additional information.

Th. Mayor spoke of his conference with the Bank Superintendent, Mr. Winslow, when he was in Red Deer. Mr. Winslow had urged that the city get to work at once to collect its back taxes, to cut out its grants, to retrench and save in every possible way. He declared his attitude to the bank, which Alderman Coote attacked in Council and on the streets. He did not believe in going to the bank and having it out with them, as Alderman Coote suggested. He had not neglected his duty in the matter simply because he took what he considered the wiser course.

Alderman Coote agreed the Mayor of misquoting him, and attempted to pin his words down to some inaccuracies of statement.

The auditor, Mr. Allen, presented his annual report for 1914, which will be published in the papers as usual for the information of the Council.

The Hospital Board presented their financial statement for 1914, which will be presented in detail to the Council.

Alderman Coote and the Commissioners outlined the situation in regard to the

BELLADONNA

"During recent years the entire supply of belladonna has come from a very limited territory, a few provinces in Germany and Austria, and a few shires in England. While the war continues and probably for many years to come, this supply will be cut off. The cultivation of belladonna in America is now receiving attention and probably will also lead to the cultivation of other herbs which have heretofore come from Europe exclusively.

"The entire belladonna plant is highly poisonous. Its leaves and roots are largely used in medicine and it is for this purpose that it is cultivated by peasants in the sections mentioned above.

"Both roots and leaves of the plant contain the poisonous alkaloid atropia. Preparations of belladonna and atropia are used in medicine as anodynes in local and nervous pains and for other purposes. A popular and growing use of belladonna is in the preparation of plasters."

We sell "Rex" Belladonna and Capsicum Plasters.
It is a Plaster for Any Pain.

WEDNESDAY, MARCH 17th, 1915.

RECOGNITION.

Alberta has sent 10,000 men to fight for the Empire. This is glorious news, and shows the people of this province to be second to none in the Dominion for patriotism. The press rightly comes out with big head lines about these 10,000 men, and we might add that every man is a volunteer, not a single one of them had to go, consequently every honor we can put upon these men should be done. We can never repay them for the sacrifice they are making. They have left home, parents, wives, and families, and everything that man usually holds dear, to fight for their Empire in the cause of humanity and the principle of right that has made the British Empire what it is today. The world will never know the extent of the sacrifices these brave men have made, but we here in Alberta who have to stay at home will do our part, as far as possible, in looking after the dependents of these volunteers. But there is another man also that has something coming to him. We refer to the man whose heart is just as big, and whose spirit is as high, and whose anxiety to fight is just as great, as the man who has been accepted, namely, the man turned down by the doctor because of some physical deformity, something that would not really interfere with him as a fighting man, but a certain standard has to be maintained, and so he is refused. The day will in all probability come when the question will be asked, as it never has been asked before in this world: What part did you take in the late terrible war, fought for freedom of humanity and democracy versus militarism and autocracy. The question will be put to the individual. There will not be much use hiding behind the nation to which we belong. There has already been something of this in England, and rightly or wrongly, as the case may appear, men have been held up in the street and the finger of scorn pointed at them by the supposedly weaker sex, who are, after all, responsible to the greater extent for the nation's misdeeds, because they have not been able to show that they were willing to do their part. It is asking too much that some form of recognition, in the form of a roll of honor, a small parchment certificate, or other tangible paper, be given a volunteer turned down for something beyond his control. Let's something coming to him! Should we not consider his feelings? This affects us here just as much as it does those on the other side of the water, for we have men in our midst who would be in the firing line today if their wishes had been carried out. Who will be the man to initiate a scheme of recognition for these men?

They pay all expenses; and the people of this great Dominion are behind them, too, and don't you forget it. But it was different when the Brits were in power, and the Bulletin's boss, Hon. Frank Oliver, was one of them. The people had almost to insist on the Laurier Government sending troops to South Africa, and when they were sent the Mother country had to pay the shot while they were at the front.

This war is costing Canada \$100,000,000, and the hearts of our citizens are throbbing with sympathy for our brave lads who are now daily shedding their blood in defence of the Empire, while papers like the Bulletin are making unparliamentary and idiotic remarks like the above for the purpose of getting a gibe at the government which is doing so much for the Empire in these trying times.

THINGS LOOK DIFFERENT IN GERMANY.

Mr. Irvin Cobb, the war correspondent who, with several colleagues, was a "guest" of the Germans for some time, has come home, and is lecturing in his native United States. His articles, written while under the censorship of the German army, leave a rather different impression to that which one gets from a report of his lecture. He was wont to assure his readers that he never came across one case of German outrage in Belgium. They were plentifully reported, but always as having occurred in the next village. Now, Mr. Cobb tells us things that sound as bad as any of those stories of the first weeks of the war. Nor does his picture of the treatment given their wounded by the German authorities strengthen our respect for the German war machine. Every week since the beginning of August, he says, 50,000 wounded are sent in from the front.

The physicians give them such treatment as they could, and in each batch they weeded out five or six who would never be sent to the hospitals. Instead, said Mr. Cobb, they would be carried out in a "pine box" and laid with thousands of other pine boxes containing the remains of nameless German soldiers.

"In the German code," Mr. Cobb reports, "the slightly wounded remain the men that are still in one piece." Altogether his lecture gives an impression of ruthlessness and of the subordination of every human instinct to the military machine, which is the severest indictment of Germany that can be made.

MERCHANTS SHOULD ADVERTISE.

"There used to be the greatest rivalry in our store," related an ex-general merchant to the writer recently, "to get the farmer's wife to spend all her butter and egg money when she came to the town. If we didn't get the surplus above what she had decided to take out in trade it either found its way into some other store or into the bank next door."

This man is today the general manager of the branch of a large Canadian foodstuffs industry who has made a brilliant success as a salesman. He worked his way up from an obscure clerk in a small store to his present enviable position because of that power to sell goods.

Grocers and general merchants of today are in the same position. The farmer's wife still comes to town every Saturday and sometimes during the week with her butter and eggs and she either goes out of the store with money or goods. Merchants today have in fact much greater opportunities than those of the time to which our friend refers. The farmer has prospered in recent

years with but few exceptions. He has got money he never had before. He has the money because he has been securing big prices for what he has had to sell. Every merchant knows that.

It is up to every merchant who sells to the prosperous farmer to go after country business right now.

Are the clerks in your store enthusiastic over their accomplishments as salesmen? Are they equipped with the knowledge and information that will help them get the farmer's wife to spend all her butter and egg money in your store? Those are questions of paramount importance at the present time.

Advertising in the local papers and personal salesmanship with catchy displays are methods which will be necessary to get the attention of the farmer and his wife.

TREATMENT OF SMUT.

Commissioner Clark, writing in the Agricultural War Book on "Treatment for Smut Prevention," says that in Eastern Canada there is considerable smut in the grain crops this year, but that it has not been sufficiently prevalent to make treatment for its prevention general. The losses, however, are much greater than is commonly realized, and the value of the crop would be considerably increased if treatment for smut prevention were more generally practiced. Over half the samples of fall wheat collected in Ontario contain smut, and it is also very common in the spring crops, especially oats. Reports on the samples treated indicate that formalin, one pound in forty gallons of water, is much more popular than bluestone as a preventive.

UNIVERSITY SENATE ELECTIONS.

At the meeting of the Senate of the University of Alberta on Monday, March 8th, the following new representatives were elected: Mr. James Henderson, Edmonton, to represent the Alberta Association of Architects. Mr. H. H. Gaetz, Red Deer, to represent the Alberta Pharmaceutical Association. Dr. D. R. Revell, to represent the Faculty of Medicine in the University.

Public School Board

Chairman Payne, Secretary Munro, Mr. Simpson and Principal McKenzie were present at the Public School Board meeting on Wednesday night. The Principal's report showed an attendance of 554, 44 more than for February, 1914. Miss Etta Smith's room in North Red Deer won the shield for regular attendance in the junior classes with an average of 94 per cent, and Miss Welton's room for the more advanced classes with 95 per cent.

It was decided on the Principal's request, to provide for a new teacher for the primary rooms, to commence duties after the Easter holidays.

Wax paper cups will be ordered for North Red Deer schools, to comply with the sanitary regulations of the Department.

The Department accepted the Auditor's report on the school accounts of 1914.

The Principal reported that, as a plebiscite on prohibition was to be taken the coming July, he had asked the teachers to stress the study of hygiene and temperance for the balance of the term. It was advisable that the question be fully understood by the pupils and thus bring the importance of the subject to the attention of the parents.

The Easter holidays, this year are Good Friday and Easter Monday, but the rooms of those teachers attending the Teachers' Convention at Calgary will have all the week following Easter.

March Rod and Gun

"Injun Bones and Huskies," by J. R. Fraser in March Rod and Gun is no lapidary story but an account of a desperate encounter which two adventurers in the far north had with a band of ferocious huskies from which they narrowly escaped with their lives. "That Cub of Parick's" is a somewhat amusing tale though Pat himself found the experience very provoking—a cub war cub ten miles too much for his captor. "A Visit to the Nakim Caves of Glacier Park, B.C." "Wind-dob's Cabin." "The Passing of the Buffalo" and other stories and articles, along with the regular departments, go to make up a fine March number. This sportsman's publication is issued at Woodstock, Ont., by W. J. Taylor, Limited.

Foe Surprised by Charge of Canadian Corps

Wounded Man Tells of Successful Assault on Trench

London, March 11.—An interesting description of the capture of a German trench by Canadians has reached London in a letter from one of the men who took part in the charge. The Canadian writer says:

"At 4 a.m. we were ordered to take a German trench, 25 yards away. 'Quite simple,' we were told. 'Just shake your bayonets and they will surrender.' We went forward through the mud until we were almost on the enemy's trench. The Germans, apparently surprised, fired a round apiece at us and then fled. One of our men was shot outright, but we caught the German and settled the account. It was hell as the enemy started firing, also throwing hand-grenades and using machine guns, but we held the position long enough to enable our fatigue party to break down the trench. Then we slowly retreated, taking dead and wounded with us. We were stepping into our own trench when a machine gun got me."

Today's London papers contain the simple announcement that the second Canadian contingent has reached England. There was no previous intimation given in the papers here.

Successful Concert and Dance at Nordegg

Mrs. Dr. Gray and a committee of Nordegg ladies organized and carried out successfully a patriotic concert and dance on Monday night, the 1st inst. The proceeds go to the Central Alberta Motor Automobile Fund. As a result of their efforts, the ladies will be able to hand over to the fund treasurer the handsome sum of \$200.

PROGRAMME.

30 minutes motion pictures "The Perry; song, "O Canada," Mrs. Gray and artists; song, "Song That Reached My Heart," Jos. Hunter; song, "Thora," Mr. Rowley; violin solo, "Scotch Airs," Mrs. Shanks; song (contralto), "Handsome Harry," A. McKelvie; recitation, Mr. McCallum; pianoforte solo, Mrs. R. Woodley; duet "Life's Dream is Over," Mr. McKelvie and H. Walker; song, "Kilncren," Mrs. Shanks; song, "The Veterans," Jos. Hunter; recitation, T. McKelvie; song, "Happy Moments," H. Walker; song, "Rocked in the Cradle of the Deer," A. McKelvie; song, "Queen of the Earth," Mr. Rowley; song, "Ora Pro Nobis," Mrs. Shanks; song, "Tipperary," H. Walker and artists; 31 minutes motion pictures, "The Iron Trail," Mr. Perry. Dancing 10.30 to 3 a.m.

Aspelund-Blindman News

Mr. Hukle, who bought the Murphy place, has already taken possession, and Mr. Murphy has rented a place near Red Deer.

The kneeling sawmill is in full blast. Farmers will be able to get their lumber hauled home while the sleighing lasts.

Many farmers have put up a good supply of ice. This will enable them to get better prices for their cream during the hot summer months when they can carry it on ice. It may also be a treat of ice cream for some one.

The Ladies' Aid held their second meeting at Mr. P. H. H. H. last Thursday. About thirty dollars is in their treasury towards an organ. Mr. Light, from Devonport, Wash., who was expected to come back and move on his farm, has changed his mind, and will not come. He has rented his farm to Truckenmiller.

It is said that Will Truckenmiller will come back from Opportunity, Wash., and buy a farm here in the old neighborhood. A good locality in "Sunny Alberta," is hard to beat. All this that "stay with it" will do well.

U.F.A., Edwell Union

No. 53

One of the best attended and enthusiastic meetings of this Local Union was held on Wednesday evening, March 10th, in the school house, under the chairmanship of President, Mr. J. Comer. There was quite a number of the ladies present. This goes to show that the Edwell Local Union is getting more and more interested in the time. After the disposal of correspondence, Mr. P. J. Powell contributed a paper on the history and ethics of co-operation, as well as co-operation from its inception in 1799 to the present time. He urged the members to be true to their principles of co-operation, as it was only by this means that they could maintain their position and strength. Also, he pointed out, to be true co-operators it was necessary to be unselfish and help the other man, and to be true to the motto "Each for all and all for each." A hearty vote of thanks was passed by the meeting for Mr. Powell's paper, and the meeting adjourned to March 24th at the usual hour, when Mr. Comer, the President, will contribute a paper.

Inquiries were made for 100 bushels of feed wheat, 25 bushels of seed wheat, and 50 yearling head. Any one having these on hand please communicate with the secretary, stating price.

FOOLISH AND DISLOYAL UTTERANCES.

Why should not the Canadian government supply socks and underclothing to Canada's soldiers, as well as munitions and razors—Edmonton Bulletin.

They do. And, further, they furnish them with everything else, and

The W. E. LORD Co'y,

LIMITED

Saturday, Mar. 20th

YOU are cordially invited

Your attendance is requested at this our spring opening which has been delayed because of late deliveries, and even yet we regret all lines of spring stock are not yet to hand. However, we shall show you the newest in

Millinery for Easter

LADIES' SUITS and COATS

will be displayed, showing authoritatively the latest models at very reasonable prices.

GLOVES FOR EASTER

and NOVELTY NECKWEAR are ready for your approval.

SHOES FOR EASTER

By the end of the week we will have our Shoe Department on the ground floor. In this new department you will find just the shoe you want for spring wear---the latest styles, in lasts and materials, which are most popular.

We will welcome your attendance at

Our Opening on Saturday

and every day thereafter.

THE W. E. LORD CO'Y, LIMITED

CARDINAL FACTS

This is Canada's war. What will the harvest be? Increase of knowledge means increase of production.

The first essential for the highest yield is good seed.

Not only grain growers, but breeders and all producers, are making history at this juncture.

Value of the crop is increased if treated for smut prevention.

Failure to secure suitable varieties is a frequent cause of poor results.

All grain intended for seed should be cleaned and graded, in order to retain only the strong kernels.

Farmers who have separate houses for their laborers have no difficulty in securing help.

Good labor is worthy employment in winter as well as in spring, summer or autumn.

If labor is scarce now, it will not be more plentiful in another year, so it is wise to encourage present help.

A bureau of employment could find useful work in every town of size.

Austria has decreed that every acre must be utilized for production. Wasting land is the worst form of extravagance.

Live stock is the foundation of permanently successful farming to-day, as it has always been.

The farmer who conserves his best stock for breeding will profit greatly in the future.

When manure is piled and allowed to heat, the vitality of most of the seeds is destroyed; but when drawn to the field from the stable, or not left long enough in the pile to become well rotted, manure is one of the most important means of seed dispersal.

Canada is many times larger in area than Belgium, but in population there is not a great deal of difference, that is, considering Belgium, before the war.

The protector of small states. The greater the area and variety of area, the more protection is needed when emergency arises.

A MEDICAL MAN'S OPINION.

Over a hundred million dollars were spent for drink in Canada in the year 1914. "Civil waste and wanton waste." Even the Brewers Journal says that as drink is a luxury and an extravagance, it should be curtailed at the present time.

That estimate of one hundred million does not take into account the cost of the liquor or the liquor that is manufactured out of chemicals. Just think, if that amount of money had been spent for food, clothing, better houses and better furniture what a boom it would have been to business. What a multitude of men would have found employment making these articles. Thus it injures business, robs men of employment, and almost every one is more or less affected by it.

It is not only wastes money that would help all lines of business, but it makes a large number so poor that they cannot pay their proper share of taxes, and so the burden falls on a smaller number, and the burden of taxation is increased every year.

Again it causes crime and poverty and insanity, and we now know that it is the very greatest cause of disease by dulling the defensive powers of the system. Think of the great number of people immured in jails, penitentiaries, asylums, poor houses, etc., that have to be clothed and fed and cared for out of the taxes. No wonder Gladstone said give me a sober people and I will have no difficulty in raising the revenue.

And Hon. Geo. E. Foster said that if the liquor traffic were stopped we soon would not know ourselves we would be so prosperous.

If any one thinks that doing away with the liquor traffic would increase taxes or do harm in any way whatever, let him ask himself why the people in districts where local option is enforced are so well pleased with it.

Will some one tell us why the legislature usses itself with minor things and does not try to lift this burden off the people.

H. Arnott, M.B., M.C.P.S.

PROGRESS.

"Of course we all know that railroads have long maintained strict rules in regard to drinking among employees; but do we know that within the last few years practically every great industry in the country has established similar rules."

"Drinking will now spell prompt dismissal for you if you are an employee of the Hershey Chocolate Company, the International Harvester Co., Sherwin Williams Co., Sheffield Car Works, United States Steel Corporation, Western Electric Co., Pullman Co., Edison Co., Western Union, Ingersoll Co., Standard Oil Co., or any one of a thousand other American firms of the first rank."

"This magazine could be crammed from cover to cover with instances of the strong front industry has assumed against alcohol during the last two years."

"And note this: C. L. Close, manager of the famous bureau of safety of the United States Steel Corporation, a man who knows the social side of industry as few men do, declares his opinion that in ten years, through the combined efforts of the American industries, the manufacture and sale of liquors will be at an end in the United States."

January issue of the Technical World.

How I wish that every one could get a copy of the journal from which the above extracts are taken. There would be few who would not be convinced that alcohol is the greatest evil in the world today."

H. Arnott, M.B., M.C.P.S.

WAR IN FAR EAST NEAR, HE PREDICTS

Toronto, March 11.—That there will be war between China and Japan in a few months was the prediction, at the night of Sun Lin, ex-speaker of the first Szechuan government of China, who is visiting Toronto. The demands of the Japanese, he said, and that they want to control Chinese finances and militia. All parties in China, he said, were united to resist Japanese aggression.

JAPS DISPATCH TROOPS.

Tokio, March 11.—The newspapers report that Japanese troops are preparing to go to North China and Manchuria, ostensibly to relieve the garrisons there.

Death Reported of Major G. M. Higginbotham

Toronto, March 11.—Word was received here today, that Maj. George M. Higginbotham, of Toronto, is dead at Shorncliffe hospital, England. He went with the first contingent from the Queen's Own Rifles, Toronto, was invalided from the trenches in France, with appendicitis, operated on by Colonel Dr. Armour, and his condition was reported at first satisfactory. He served in South Africa, and was a member of the Victorian Order.

Turk Batteries at the Straits Are Weakening

Paris, March 11.—A vigorous bombardment of the fortifications in the Dardanelles was continued yesterday (Wednesday) according to a Tennes dispatch to the Matin. A heavy fog prevented aviators from obtaining the results of the fire from the fleet, but the replies from some of the Turkish batteries slackened perceptibly.

Delburne

Delburne, March 12.—Mr. and Mrs. Rowell spent the week-end at Hillside.

Mrs. Ball and two children, of Louisiana, have moved to Delburne.

Rev. and Mrs. Haddon gave a jolly sleighing party Tuesday afternoon to celebrate their son's birthday.

W. G. Clendenen is in Red Deer on business this week.

The Merchants Bank has been newly decorated inside with the addition of a teller's cage.

Mrs. Huxley Johnson and daughter are visiting in Calgary.

There will be a bazaar in the Methodist church on the afternoon and evening of March 12th.

Mr. Nicholson, of Lethbridge, is in Delburne, where he has rented a building on Second avenue, where he intends opening a livery shop.

H. Johnson made a business trip last week to Calgary.

Mrs. Sidney Smith visited her son, Dr. Roy Smith, at Grey last week.

A. T. Rowell will open a grocery store on Main street the last of April in the store with H. W. Lachart, who will conduct a furniture and crockery store.

An interesting debate was well attended in the Methodist church, Delburne, last Monday evening.

Members of the Great Bend Club challenged the Delburne Y.P.S. to debate on "Resolved, that the consolidated school system is favorable to the present unit system."

Great Bend had the affirmative, and the judges decided in their favor.

Raven Ripples

Frank LaVolley is putting in a shingle and lath mill, and is now looking up a good pine grove to start up. He intends to run during the summer months. There will be the made-in-Raven kind. He traded his hay press and three horses for an International auto buggy equipped with a palley for power which develops 12 horse power. He also got a buzz saw and 8 inch burr feed grinder, so he is ready for anything that comes along. He tried to run his auto out from Innisfail and got stuck in a snow drift and broke his piston rod, so he hired D. A. Adams to drive it out after he had it repaired, which Mr. Adams did successfully last week, also got some feed ground the same day by it.

Everybody is busy getting out posts while the sleighing lasts.

The farmers in this district have learned a severe lesson this winter. Last fall they neglected to cut sufficient wild hay, leaving hundreds of tons rotting in the fields. They are now paying high prices and hauling it 15 or 20 miles when they could have had lots for the cutting of it. They do not think it will happen again soon.

The U. P. A. are having lively meetings twice a month.

A very enjoyable hard time dance was held last Friday at Andy Bower's. Early Taylor carried off the grand prize. He sure was it.

Penhold

The Penhold Red Cross Society held a very successful sewing meeting at the home of Mrs. Hugh McInnis on Thursday, March 11th, 1915.

The next sewing meeting will be held at the home of Mrs. Brown on Thursday, March 18th, 1915.

The Society will ship the goods they have already on hand to Calgary on Friday, March 19th, 1915.

Penhold Red Cross Society begs to acknowledge, with thanks, the sum of \$2.60, being the proceeds from the lecture given by the Rev. A. Barton on February 25th, 1915.

NORTH RED DEER

No Turk force Near Suez Canal

London, March 11.—A dispatch to the Daily Telegraph from Cairo says that a British airship reconnaissance shows that there are no Turkish troops within a fortnight's march of the Suez canal. A dispatch to the Morning Post from Alexandria, however, says a steamer from Syria reports that the Germans are still constructing a railroad toward Egypt, thus indicating that an attack on Egypt has not been abandoned.

PURE BRED FOWL FOR SALE.

For sale—1 rooster and 4 pullets. All pure bred White Leghorns, birds. Rooster splendid bird, Manitoba bred. Also Cycle hatcher and gas-line stove cheap. Apply MRS. HADLEY, 2nd Ave. South. Mar 10.

CITY OF RED DEER

Second U.S. Ship German Commerce Raider's Victim

President Wilson Promises Searching Inquiry Into Eitel's Activities

Washington, March 11.—The British steamer *Charras*, said to have been one of the Prinz Eitel's prizes, sunk in the South Pacific in December, was American owned, the property of W. R. Grae and company, of New York, and was on her way to New York to take American registry at the time of her destruction.

The following statement was issued at the White House today: "The president, when asked regarding the sinking of the American sailing ship, *William P. Frye*, by the German auxiliary cruiser *Prinz Eitel*, Friedrich, said: "A most searching inquiry will be made, and whatever action is taken will be based upon the result of that inquiry."

The neutrality board has made a report which, it is understood, recommends that the Eitel be permitted to make such repairs as would make her "seaworthy" under supervision of American naval authorities, if the commander of the German ship requests it.

Duke D'Abruzzi Head of Fleet

Spezia, Italy, March 11.—Vice-Admiral the Duke of Abruze, embarked yesterday on his flagship, the new Italian dreadnought, *Conte Di Gavuro*, to command a squadron composed entirely of dreadnoughts. The squadron comprises the *Dante Alighieri*, *Cairo Duilio*, *Giulio Cesare* and *Leonardo Da Vinci*. This is the most powerful combination of units that Italy has ever had in one squadron.

12 Submarines of German Navy Reported Missing

London, March 12.—(3.35 a.m.)—A despatch to the *Daily Express* from The Hague says: "A secret report has been sent from Cuxhaven to the admiralty at Berlin that 12 submarines have failed to report at their base, eight of them being Germany's newest boats."

"The naval council will meet to-day or tomorrow under the presidency of Emperor William to discuss whether or not it would be better to abandon the submarine war."

Patricia's face to face With Germany's Crack Regiment

London, March 11.—One would imagine from a letter received from a Canadian officer with the Patricia that neither the Jack Johnsons, nor the ubiquitous snipers, nor the dreadful German bullets causes him and his men so much concern as the absence of cigarettes. "A smoke at night now is a great comfort, and it is hard to do without one," he writes.

And then he adds: "It is possible we are not entitled to anything from the imperial government or from the British newspapers, but the Canadian government has evidently not provided for us in this way."

He goes on to point out that the English Tommies get as many as 70 to 100 cigarettes a week, in addition to tobacco, while in their own particular case, for instance, 20 smokes is all they have received.

Ten days ago this Canadian company had the distinguished honor of being face to face with Germany's crack regiment, the Prussian Guards. So close were they to one another that they could hear the "hooches" talking in the trenches and hurrying abusive epithets at their inveterate enemy, the British.

"They are splendid shots," writes this officer, "and very cunning. Despite the fact that the perches in our trenches are concealed they actually succeeded in firing through them time and again. The other day they tried to draw our fire and locate our sentry by a clever display of American owned, the property of W. R. Grae and company, of New York, and was on her way to New York to take American registry at the time of her destruction."

The following statement was issued at the White House today: "The president, when asked regarding the sinking of the American sailing ship, *William P. Frye*, by the German auxiliary cruiser *Prinz Eitel*, Friedrich, said: "A most searching inquiry will be made, and whatever action is taken will be based upon the result of that inquiry."

The neutrality board has made a report which, it is understood, recommends that the Eitel be permitted to make such repairs as would make her "seaworthy" under supervision of American naval authorities, if the commander of the German ship requests it.

Letter From Holland

The following letter was received a few days ago from a Belgian refugee in Holland, and shows some of the sufferings we made happy by gifts from this city.

To the Mayor and Inhabitants of Red Deer.

Ladies and Gentlemen,—We are deeply moved with the marks of sympathy for the suffering Belgians, and I thank with all my heart the dear inhabitants of Red Deer, Alberta, Canada, for their kindness in sending us clothes. The things I have received have come in very handy to me in these hard and trying times. My sisters, respectively by 21 and 15 years old, and also my brother, ten years old, wish to return thanks for gifts received.

We should also feel grateful for some footwear and clothes to our address, as we are still lacking in these things. I am praying for the victory for the Allies and for the valiant combatant of Canada. Long live Canada! Long live Belgium!

Kindly receive, ladies and gentlemen, the expression of my sincere gratitude and the assurance of my deep thankfulness.

JACQUELINE HEMIS, Antwerp, Belgium.

Refugee in Holland. Koestraat No. 63, Flushing, Holland.

Japanese Soldier in Canadian Regiment

Ts'iji Nishikio, of the 9th Canadian Mounted Rifles is one of the very few Japanese in Canada who have been allowed to enlist. He was working as a bell-boy in the Empress Hotel, at Swift Current, Sask., and tried to join the 2nd contingent, but was turned down on account of his height, as he could not reach 5 feet 5 inches and the standard called for 5 feet 7 inches. However, he bided his time till the call came for recruits for the 2nd contingent, and the standard being reduced, "Ts'iji," as he is called, was accepted. He has an uncle who is a captain in the Japanese regular army.

Are You Planning a Garden?

Books in the Public Library May Help

If you are thinking of a garden this summer, in all probability you will find some assistance in the following books dealing with Horticulture. Many of the books on this list were purchased with the money kindly given the library by the Horticultural Society. It would be well to cut this list out for reference. The public will please note that during April, May and June, when garden books will likely be in demand, that they will be loaned for seven days only, in place of the usual fourteen days. The list follows:

Bulbs and Tuberos Rooted Plants—Allen, C. L., The Fernow, Bernard E. 44-46 E. Parkvale 82.55 2.00 84.55

Evergreens—Harrison, C. S. 7-8 F. Parkvale 20.50 2.00 22.50

Farm Wind-Breaks and Shelter Belts—Green, Samuel B. 9-12 G. Parkvale 67.02 2.00 69.02

Hedges, Wind-Breaks, Shelters and Live Fences—Fowler, E. P. 1-5 K. Brookside 51.53 2.00 53.53

Landscape Gardening Studies—Parsons, Samuel. 4-6 N. Brookside 66.87 2.00 68.87

British Collier Reported Sunk

London, March 11.—A wireless dispatch from Berlin says a report has been received from Rotterdam that the British collier *Beethoven*, bound from Newcastle for Gibraltar, has been sunk either by a torpedo or a mine. Two of the crew are said to have been drowned. The others were saved.

Reprisal Order Signed by King

London, March 11.—Great Britain's plans to give effect to the naval reprisals against Germany, as embodied in an order-in-council, was signed today by King George V. The king signed the order during a session of the privy council at Buckingham Palace. Details of the plan have not yet been made public, but the order will be gazetted soon.

SALE OF LANDS FOR TAXES

In the Municipality of the City of Red Deer, the Red Deer Public School District Number 104 and the Red Deer Separate School District Number 17, of the Province of Alberta, for arrears of taxes and costs.

NOTICE IS HEREBY GIVEN that certain lands in the Municipality of the City of Red Deer, the Red Deer Public School District Number 104 and the Red Deer Separate School District Number 17, for arrears of taxes and costs on Friday, the 14th day of May, A.D. 1915 at the City Hall, Ross Avenue, in the city of Red Deer, at the hour of two o'clock p.m.

A full list of the lands to be offered for sale may be found in the issues of "The News," a newspaper published in the City of Red Deer, on the following dates, viz: Wednesdays, March 10th, 17th, 24th and 31st, 1915.

And, unless the arrears of taxes and costs are sooner paid, the undersigned, Secretary-Treasurer of the City of Red Deer will proceed to sell the lands referred to for taxes and costs on the day and at the time and place above mentioned.

Red Deer, March 3rd, 1915.

A. T. STEPHENSON, Secretary-Treasurer.

Synopsis of Canadian Northwest Land Regulations.

The sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency), on certain conditions.

Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter-section, alongside his homestead, on certain conditions.

Duties—Six months residence in each of three years after earning homesteaded patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homesteaded patent, on certain conditions.

A settler who has exhausted his homesteaded right may take a purchased homestead in certain districts. Price \$3.00 per acre. **Duties**—Must reside six months in each of three years, cultivate 50 acres and erect a house worth \$300.

The area of cultivation is subject to reduction in case of rough, scrubby or stony land. Live stock may be substituted for cultivation under certain conditions.

W. W. GOREY, C.M.G.,
Deputy of the Minister of the Interior.

The REXALL Store

GAETZ-CORNETT DRUG AND BOOK CO.

LOCAL AND GENERAL

The streets are drying off nicely. Wedding and engagement rings from Snell's, jeweller, are of the very best.

The annual meeting of the Red Deer hospital supporters will be held on Tuesday evening next.

The soldiers' reading room would appreciate the recent magazines as soon as read, also the illustrated papers.

You cannot buy home furnishings for less than Best is offering for the balance of this month. Everything goes at cost price.

St. Luke's W. A. will continue their series of ten cent teas and sale of cooking to the end of Lent. Don't forget. Time and place, Parish Hall, 2 to 6.

Mr. Jas. A. Youmans is local agent for "Billy" Sunday. The Man and His Message, a new and popular book, at \$1.00 and upwards. Ask him to show it to you.

The regular meeting of the Methodist W.M.S. will be held on Thursday afternoon at 3.30 at the residence of Mrs. R. L. Gaetz. Collection in aid of the Red Fund.

Farmers—Just arrived, a carload of spring machinery; also forty buxoms and democrats to choose from. Seed oats and barley chop for sale. Call in and inspect them.—Jarvis & Hammond.

A ten cent tea and sale of cakes will be given by the Pewit Patrol, first troop, Red Deer Boy Scouts, at the home of Mrs. Quigg, Fourth St., on Wednesday, 24th inst. Proceeds in aid of the Red Deer Scouts' Fund.

Len Cooper, who left for Halifax recently to join the A. M. Corp., writing to friends in the city here, states that he is well, and stationed at one of the hospitals there, doing hard training, and expects to leave for the front in a few weeks' time.

A resident of Sylvan Lake district, who has recently enlisted with the Mounted Rifles at Red Deer, has had his place rifled and various articles stolen. The Police have taken the matter up, and it is to be hoped they will be successful in bringing the guilty party before a magistrate, where they should be made an example of.

The Blackhills correspondent of the Lacombe Globe says: By the removal of Mr. and Mrs. Magee to Red Deer, the town will suffer a decided loss. They have been for most in every good work since taking up residence here. At the close of the service in the Presbyterian church on Sunday evening, the Rev. W. A. Greer made reference to their event, paying high tribute to their work and worth.

Try Best's for bargains.

Spring seems to be here.

Pianos tuned.—J. R. Welton.

Mrs. Stent, of Lacombe, was in the city yesterday.

Bob Land has returned from his visit to California.

Military wrist watches from Snell's are fully guaranteed.

Don't forget to order your Spiedola Corsets at the parlors, 24 Ross Street.

You have got just four more days to take advantage of the big bargains at Best's.

The case, B. Trindle against City of Red Deer, is proceeding before Judge McCarthy.

Mrs. E. C. McLeod will not receive on Thursday of this week, nor again this season.

The Red Deer Fire Brigade will hold their annual dance in the Parish Hall on Tuesday evening, April 6.

Best's big bargain sale of furniture, carpets, crockeryware, etc., ends Saturday night, so get busy.

The Cunningham Land Company have sold to Mr. J. G. McCullough, of Blackhills, part of Section 27, Township 39, Range 27.

A concert and dance will be held at Sveinson's barn, Burnt Lake, on Friday, April 9th. There will be a charge of fifty cents for each ticket. Refreshments will be served during the evening. Proceeds will go towards the Motor Ambulance Fund.

The Missionary Society of the Presbyterian Church will hold the regular monthly meeting in the church hall on Friday, March 12th, at 3.30.

W. Stark, of Crossfield, has purchased the stock of P. W. Ward at the Hub Shoe store. Mr. Ward leaves for Bowden, where he will conduct a farm.

The I.O.O.F. Red Cross Committee beg to acknowledge work returned as follows: Miss High, 24 housewives; Mrs. Marile, 2 shirts; Miss Marile Proctor, 2 wash cloths; Miss Una Dale, wash cloth; Miss Vivian George, wash cloth; Mrs. Brook, pair socks, wash cloth; The Convent, 48 handkerchiefs, 6 wash cloths; Mrs. Gibson, helmet. Also the following donations: Mrs. T. Ashwood, bundle old linen; Mrs. Rutherford, 3 pillows; Willing Workers, filling for 25 housewives.

WORK WANTED.

A steady willing worker wants job of any kind, farm work preferred. Season or permanent. Reply to WORKER, News Office, Red Deer. Mch 17, 1915.

GREAT CLEARING SALE

AN ANNOUNCEMENT TO FARMERS AND CITIZENS

This is the last great chance to get lumber at less than the cost of manufacture. The stress of these trying times compels us to raise money, and to do this, we realize that we have to sacrifice our stock and offer the public genuine bargains in all lines of Building Materials. Beginning March 10th and ending April 10th we will place our entire stock of Lumber and all other Building Materials on the market at a lower price than these have been selling wholesale. Remember you will find everything as represented. We have in the neighborhood of five million feet of native lumber in our yard at the present time, perfectly milled by the latest and most modern machinery and are prepared to stand behind the stock you buy and guarantee it to be up to the standard in quality, grade and size.

Farmers, if you have buildings to erect, or repairs to make, now is the time to buy your Lumber, for never in the history of the West has Lumber sold at such an extraordinarily low price. These prices are CASH only. If you are not ready to haul your lumber, or have it delivered now, pay us for what you wish to buy at these prices and we will reserve the material for you until you are ready to use it. Remember, we sell everything in the building line including

Lime, Cement, Paper, Roofing, Windows, Doors, Fir & Cedar Finish, Mouldings, etc.

And all this stock we intend to throw on the market at a correspondingly low figure. Space will not permit us to show you one-third of the Bargains we have to offer. We are showing a few of them in the space below. Look them over.

High Grade SHIPLAP
